B.Tech CSE (AI & ML) student at VIT Bhopal with strong skills in Python, C++, Java, and frontend development. Passionate about data science, machine learning, and problem-solving. Open to tech roles in data science, AI/ML, and web development.

## SKILLS

- **Languages:** Python, C++, Java, HTML, CSS
- **Tools & Libraries:** Pandas, NumPy, scikit-learn, Git, GitHub, Jupyter Notebook
- **Web:** HTML, CSS, basic JavaScript
- **Other:** Data Structures & Algorithms, Problem Solving

## PROJECTS

- **COVID-19 Severity Predictor:**  
ML web app predicting COVID-19 severity using ensemble models (Python, scikit-learn)
- **Calendar App:**  
Tkinter-based calendar for event scheduling (Python, Tkinter)
- **YouTube Website Clone:**  
Responsive homepage using HTML & CSS

## EDUCATION

- **Vellore Institute of Technology (VIT Bhopal)**  
B.Tech, Computer Science Engineering (AI & ML) | 2023-2027
- **Dyal Singh Public School**  
Class 12: 85.6% | Class 10: 95.4%

## CERTIFICATIONS

- AWS Solutions Architecture Job Simulation - Forage (May 2025)
- Mastering Data Structures & Algorithms using C and C++ - Udemy (Jan 2025)
- 21-Day Coding Challenge - Coding Ninjas (Dec 2024)
- Python Essentials - Vityarthi (Dec 2023)
- MATLAB Certified - MATLAB Coding (Aug 2023)

## INTERNSHIP

- **CodSoft - Web Development Intern (May-June 2025)**
- **Pinnacle Labs Pvt Ltd - C++ Programming Intern (Nov-Dec 2024)**

## ACHIEVEMENTS & ACTIVITIES

- Selected participant, **Google Cloud Arcade Facilitator Program** (2025 Cohort 1)
- Currently participating in **GFG 180 Days** Coding Challenge
- Currently participating in **100 Days of Code** Challenge
- 500+ LinkedIn connections; active in coding and tech communities
- Participated in coding challenges and hackathons
- Consistent contributor to open-source and personal projects on GitHub
